## SAGA OF ANNIE'S PIZZA STATION

Annie's Pizza Station, family owned and operated, began in 1994 in a converted gas station in downtown Concrete. This inspired pizza names such as Diesel, Regular, Supreme and Unleaded.

(Our present location is also a former gas station.) The theme goes much deeper into the old service philosophy of early-day gas stations, when attendants took care to wash windows, hand out travel maps, and provide clean restrooms.

We take pride in using quality ingredients, freshly prepared to order. We bake all our breads and pizza crusts from scratch. Salads are prepared with hand-torn lettuces. We make our own soups and lasagnas. There is love in everything we make!

Our pizzas are baked in traditional stone-lined deck ovens, resulting in pizzas with a unique taste and texture. However, this combination of custom-made pizzas and limited oven capacity sometimes results in longer wait times than "fast food" pizzas. Be patient and we're sure you'll love the results. Phoning in your order is suggested, and reservations are encouraged for larger groups.
